Election/Restrictions

Claims 5,6, 15, and 16 hereby rejoined and fully examined for patentability under 37 CFR 1.141.

Because all claims previously withdrawn from consideration under 37 CFR 1.141 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 12/28/05 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Reasons for Allowance

Claims 1,3-11, and 13-19 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: as to claims 1 and 11, the prior art of record does not teach nor render obvious the over all claimed combination of an apparatus for preventing fluid transfer though an opening connecting an oviduct to a uterine cavity, the apparatus comprising a peripheral anchor portion comprising a plurality of spikes extending from the periphery of the base for engaging the uterine tissue leading to the opening and securing the body to the uterine tissue leading to the opening, the base overlying the opening. Therefore, the invention defined in claims 1 and 11 is considered novel.
